

ÍCARO VIEIRA LEÃO

Risk, Internal Controls & Regulatory Compliance Specialist | Financial Services — Insurance · Banking · Health | Senior Consultant at EY (FSO) | Active CRC 1SP336304

São Paulo, SP | +55 (17) 98191-7954 | icaro.vl@outlook.com | linkedin.com/in/oleaoicaro
| github.com/oleaoicaro

I help regulated financial institutions turn regulatory demands into efficient controls and informed decisions. Over 7 years across risk management, compliance and internal audit — Top 5 insurers, a Top 3 banking conglomerate and health operators — within a 15-year professional trajectory. At EY, I lead the enterprise GRC implementation (IBM OpenPages) at a major insurer: 200+ regulations mapped (SUSEP 638/2021, BACEN, ANS, LGPD), a 60% shorter regulatory monitoring cycle and risk reporting cut from 16 hours to 8 minutes. My edge is pairing regulatory fluency (SOX, COSO, ISO 37301 — and the bridge between SUSEP Circular 638 and the banking rules CMN 4.893/BACEN 4.557) with data and AI automation (Python, Power BI). Accountant by training, active CRC.

CORE COMPETENCIES

GRC & Compliance: IBM OpenPages · SOX · COSO · ISO 37301 · ISO 27001 · NIST CSF · COBIT 2019 · Three Lines Model · AML/KYC (PLD-FT) · Controls Testing

Financial Regulation: BACEN (Res. 4.557/4.658/4.595/4.606/4.966) · CMN 4.893/2021 (Cybersecurity Policy) · SUSEP (Circ. 638/2021) · CNSP 416/2021 · ANS · LGPD · Open Banking · Basel III

Risk & Audit: ERM · Operational/Credit/Market Risk · Risk-Based Internal Audit · Root Cause Analysis · KRI/KPI

Technology & Data: Python · FastAPI · SQL · React · TypeScript · Power BI (DAX) · ETL · Web Scraping · Docker · Power Automate · LLM Integration (OpenAI · GenAI) · AI Governance (ISO/IEC 42001)

Leadership: C-Level Stakeholder Management · Mentoring · Technical Instruction · Programme Management · M&A/IPO advisory

PROFESSIONAL EXPERIENCE

Ernst & Young (EY)

2022 – Present

Senior Consultant | Risk & Compliance

Aug/2025 – Present

Property & Casualty Insurance Company | Multi-Year Compliance Transformation Programme

- Coordinate the multi-year Compliance transformation programme of a Top 5 Brazil insurer, with a team of 5+ professionals and direct reporting to C-Level
- Led the enterprise GRC implementation on IBM OpenPages: operationalised SUSEP Circular 638/2021 and the mapping of 200+ regulations (BACEN, ANS, LGPD), grounded in SOX, COSO and ISO 37301
- Cut the regulatory assessment cycle by 60% (from 45 to 18 days) and reduced risk reporting from 16 hours to 8 minutes, eliminating 99% of the manual effort
- Built the operation's compliance intelligence: 22 KRIs across 4 dashboards, monitoring of 50+ critical vendors (TPRM) and identification of non-compliance events

Risk Consultant

Oct/2023 – Jul/2025

Dental Health Plan Operator (ANS) | Internal Audit

- Conducted 3 risk-based internal audits and supported 9 more at a health operator with 600k beneficiaries, covering loss ratio, claim denials, AML and LGPD
- Tested 60+ internal controls (design and effectiveness) and classified 35 findings, 15 of them critical — with root-cause analysis and action plans negotiated with the business
- Used human-reviewed generative AI (GenEY) to screen 150+ ANS/BACEN/LGPD regulations, raising analytical efficiency by 85%

Business Consultant / Consulting FSO Trainee

Feb/2022 – Sep/2023

Traditional Insurance Company | Revitalisation Programme (8 mos) · Banking & Fintechs

- Served as strategic PO of the revitalisation programme at an insurer with around R\$ 200 million in premiums, orchestrating 25 initiatives with a biweekly Steering Committee
- Designed 8 customer journeys and the lifecycle of 15 products
- Led the BACEN compliance front (Res. 4.557/4.893/4.595), SOX and TPRM of 30+ monthly vendors, with regulatory due diligence over R\$ 14bn annually at a Top 3 BR conglomerate

SELECTED PROJECTS

GRC Technical Specification — IBM OpenPages

Delivered (EY)

Translated regulatory requirements and control frameworks (SOX, COSO, ISO 37301) into the technical specification of the enterprise GRC for a Top 5 BR insurer — the design that supported mapping 200+ regulations in the Compliance transformation programme.

Stack: IBM OpenPages · SOX · COSO · ISO 37301

Corporate Risk Heatmap (IBM OpenPages + Python)

Delivered (EY)

Executive panel that answers "where is our risk?" at a glance: 200+ regulations crossed by probability, impact and regulatory criticality, fed automatically. Quarterly reporting dropped from 16 hours to 8 minutes, became the client's reporting standard and was replicated across 3 further EY engagements.

Stack: Python · IBM OpenPages · Power BI · SQL Server

BACEN Regulatory Advisory — Banking (Traditional & Digital)

Delivered (EY)

Supported banks and fintechs in adapting to BACEN rules on risk management, cybersecurity and Open Banking (Res. 4.557, 4.658 and 4.595): adherence analysis, internal controls mapping (SOX) and third-party regulatory due diligence (TPRM).

Stack: BACEN · SOX · Operational Risk · TPRM

SUSEP Benchmarking Platform

Personal project · v3.2

Competitive intelligence for the insurance market built on SUSEP open data: rankings, loss ratios, solvency and sanctioning processes for every insurer in the country, distilled into a proprietary 10-pillar score — plus an AI assistant that answers market questions in natural language. 13+ datasets integrated with automatic refresh.

Stack: Python · FastAPI · SQLAlchemy · Pandas · Plotly · Docker · LLM/AI Chat

Antifraud System

Personal project · MVP (front-end)

Detects and manages fraud in life insurance and pension claims: each claim is scored by 44 rules across 6 dimensions, enters an analysis queue with a graph view of the connections between parties, and feeds executive dashboards of geographic exposure and team performance. Built to withstand audit: algorithmic transparency, audit trails and role-based access.

Stack: React · TypeScript · Vite · Tailwind · Radix UI · Recharts

Regulatory Intelligence Hub

Personal project · in development

A "regulatory Bloomberg": automatically captures SUSEP publications, uses AI to summarise each regulation and score its impact, and organises the end-to-end response — owner, action plan, control test and compliance dashboard. Architecture ready to extend to BACEN, CVM and ANS.

Stack: Python · FastAPI · Next.js/TypeScript · PostgreSQL · Celery/Redis · Playwright · OpenAI API · Docker

AIRNC — Regulatory Norms Analysis (Compliance)

Personal project · in use

Corporate tool, in use, for managing SUSEP regulations and action plans: runs in the browser with no server, syncs over the corporate network (SharePoint), keeps a full audit trail and consolidates regulation criticality into Frequency × Impact heatmaps embedded in Excel reports.

Stack: JavaScript · SheetJS · Python (pandas · matplotlib · openpyxl) · Power BI

Regulatory Risk Feedback Loop (Retroalimentação)

Personal project · in use

Closes the regulatory risk loop: recalculates each regulation's risk from real evidence — infraction notices, internal audits, SUSEP official letters — through 26 configurable rules, showing rule by rule why the risk went up or down. In operational use; delivered as a single HTML file that runs without a server.

Stack: React 19 · TypeScript · Vite · Tailwind/shadcn · Recharts · Vitest

EDUCATION & LANGUAGES

B.Sc. in Data Analysis with AI focus | Descomplica Faculdade Digital · Jul/2024 – Jan/2027 (in progress)

B.Sc. in Accounting Sciences | Federal University of Piauí (UFPI) · Nov/2013 – Aug/2019

Portuguese | Native

English | Intermediate (B1–B2) — reading and interpreting regulations and technical documentation in English; engagement with multi-timezone teams (EY/Microsoft)

CERTIFICATIONS

- **CRC 1SP336304** — Brazilian Accounting Council (CRC) • active (since 2019)

In progress (2026–2028): ISO 37301 Lead Implementer (PECB) • CRISC (ISACA) • CISA (ISACA) • CPA-20 (ANBIMA) • COBIT 2019 Foundation (ISACA)

RECOGNITION & LEADERSHIP

- 30+ formal EY awards (Ovation, Shine, Applause) — high-impact achievements and extra effort
- Formal EY Mentor — 2 mentees
- Internal instructor — Power BI programme for more than 200 professionals across all levels at EY South America

EARLIER PROFESSIONAL CAREER

State Audit Court of Piauí (TCE-PI) 2017 – 2019

Government audit of state public bodies; compliance analysis, internal controls assessment and contract oversight. Solid foundation in public auditing and regulatory compliance preceding the private financial sector career.

Accounting Assistant / Accounting Firm 2019 – 2022

Bank reconciliations, bookkeeping, ancillary obligations (SPED, DCTF, ECF) and fiscal support for SMEs. CRC 1SP336304 registration active since 2019.

Digital Entrepreneur / Social Media Manager 2019 – 2020

Digital entrepreneurship: creation, launch and management of info-products; content strategy and social media campaigns; audience growth and marketing automation.

Autonomous Commerce 2010 – 2013

Early professional initiation: informal trade and resale, entrepreneurial mindset development, customer relationship management and basic cash-flow awareness since adolescence.
